

Project Analysis

Group 2-12

Project description

Title: Brol.com

Description: With the Brol.com site we want customers to be able to register and buy products digitally. Customers can add and remove products to the cart and order them. Admins can create and delete products.

User stories

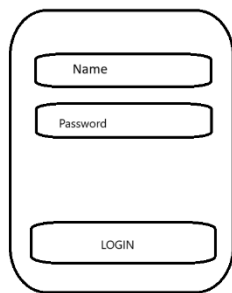

Story Login Customer

As a user

I'm able to log into my account

So that I can buy products digitally

Wireframe

A wireframe diagram of a login form. It consists of a rounded rectangle containing three input fields. The first field is labeled 'Name', the second 'Password', and the third 'LOGIN'. Each field is represented by a rounded rectangle with a thin border and a light gray background.

Acceptance criteria

- A login form is displayed
- A customer can log in
- Error messages will be displayed

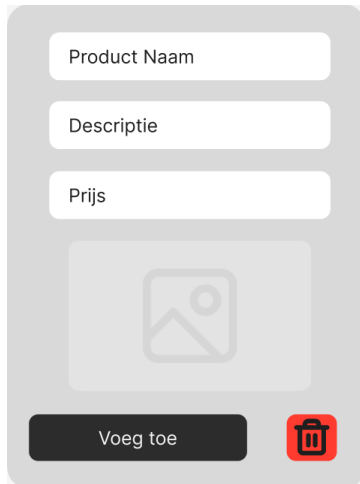

Story Products

As an administrator

I'm able to add and remove products

So that I can manage the products

Wireframe

A wireframe of a product management form. It features three input fields for 'Product Naam', 'Descriptie', and 'Prijs'. Below these is a placeholder for an image, represented by a square with a diagonal line and a small circle. At the bottom, there is a dark button labeled 'Voeg toe' and a red trash can icon.

Acceptance criteria

- A product display form is displayed
- An admin can add and delete products
- Error messages will be displayed

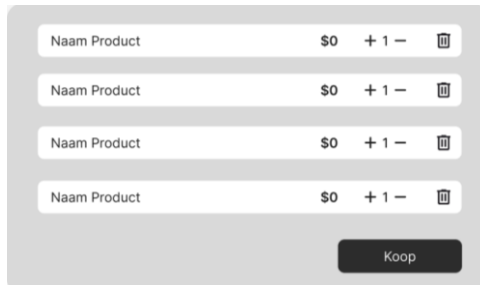

Story Shopping cart

As a user

I'm able to add products to shopping cart

So that I can order products

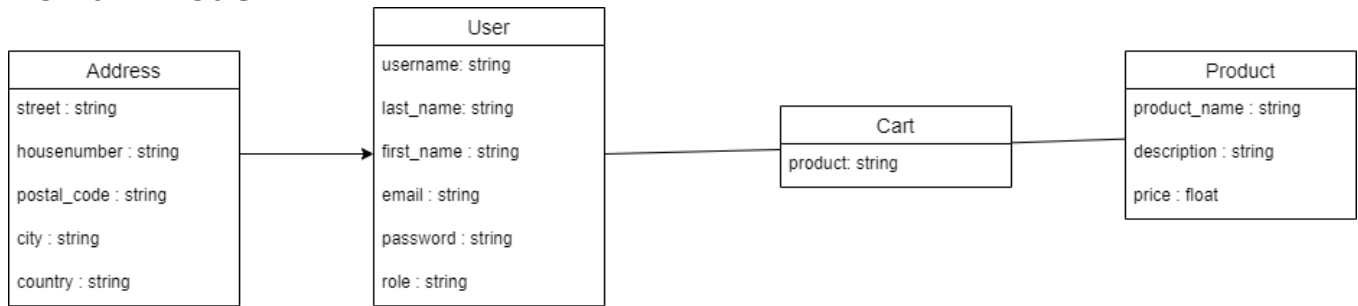

Wireframe

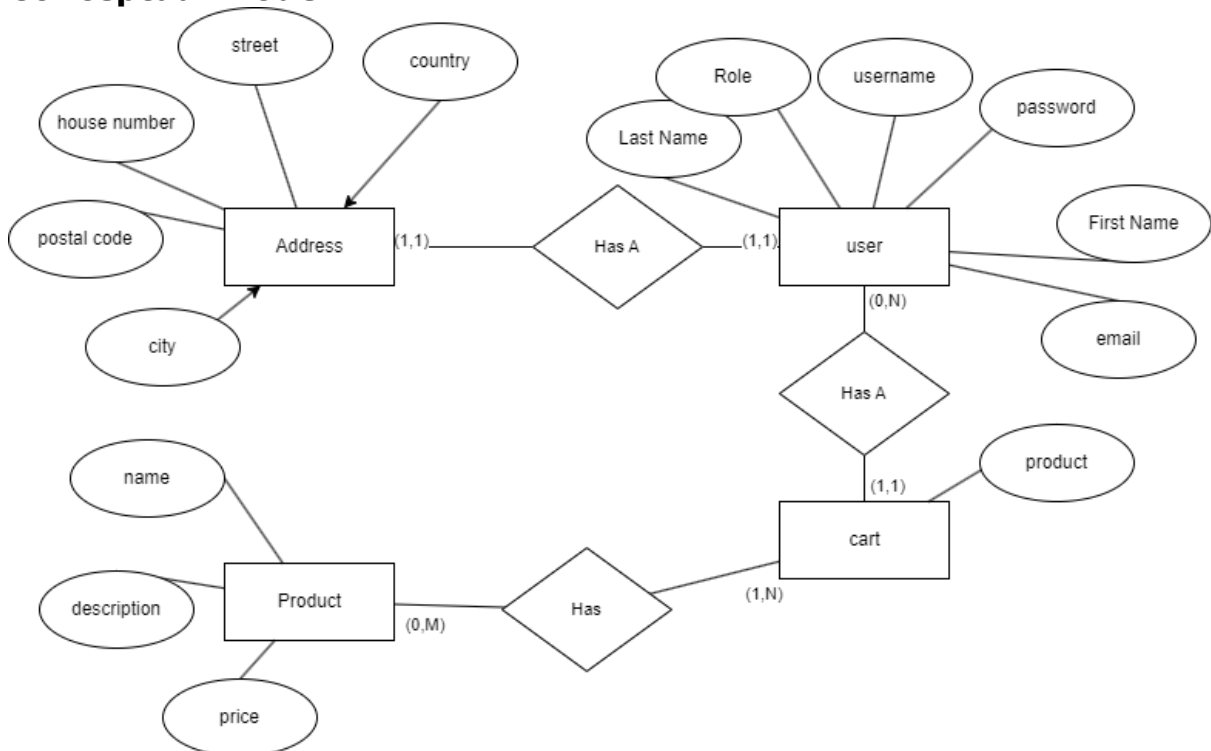

Acceptance criteria

- A user can add and delete a product from their shopping cart
- A user can order the products from their shopping cart
